Back from Yawgoog

Troop 15 Boys Scouts returned from two weeks of camping and hiking last Sunday. One week was spent at Camp Yawgoog, the other on a 55 mile hike through Washington State Park, Foster, Scituate, Greene, Hope Valley, etc. According to Scoutmaster Eugene Williams, the Scouts worked as they hiked—clearing trails, mending fences, etc. as their "good deed" for the many helping hands

extended along the way. Shown in the picture are: (left to right) Front row—David Krug, Stephen Krug, Patrick Kling.

Second row—Kevin Mastrianni, Stephen Deming, Robert Williams, Richard Choquette.

Back row—Joseph Kling, Jr., David Robertson, Dale Moss, Kenneth Krug and Scoutmaster Eugene Williams.

Coffee House Association makes plans for fall

The Coffee House is a function and a moving function. On Wednesday, July 24, all members were invited to a meeting of the East Greenwich Coffee House Association at the Coffee House. This was to plan the coming year's activities. David Henry, director of finance, conducted the meeting. Any member was encouraged to present ideas he might have for the association. The group has decided to have a Block Dance in East Greenwich for all interested high school students. This has not been approved by the town council, but seems to have some encouragement. The Coffee House will have a Battle

of the Bands at the dance.

The group has also investigated having several booths at the Fireman's Festival. These men have been a great assistance to the Coffee House—getting it on its feet.

Several other suggestions came forth at the meeting. A Steering Committee was formed to deal with necessary circumstances.

A second, similar meeting will be held at the Coffee House on Monday, August 5, at 7:30 p.m. All interested high school students within the East Greenwich fire district are invited to participate and throw in their suggestions.

Newport Bridge opening off for '68

The ironworkers strike and bad weather have moved the opening of The Newport Bridge to spring of 1969 from the present December 31, 1968, completion date, it was announced recently by Francis G. Dwyer, Chairman of the Rhode Island Turnpike and Bridge Authority.

Specifically, Mr. Dwyer said, the causes for the completion date revision are:

—The continuing strike between the New England Steel Erectors' Association and the International Association of Bridge, Structural and Ornamental Workers which

has prevented any progress on the deck contract since July 1. Only the deck work is affected by the dispute.

—Seventeen days of rainy or windy weather during the month of June, which prevented all contractors from working on the span.

Mr. Dwyer announced that it is impossible to schedule a new completion date at the present time because it is not known when the ironworkers' strike will be over. Before a new date is set, the number of working days in the fall will have to be determined, he noted.
